SKILLS

- **UI/UX Design:** Figma (for prototyping and design)
- **Frontend Development:** React.js, HTML, CSS, and JavaScript
- **Backend Development:** Node.js, Express.js
- **Database Management:** MongoDB (MongoDB Compass & Atlas , NoSQL)
- **API Development:** REST APIs, Postman API Documentation
- **Authentication and Security:** JWT, OAuth
- **Version Control:** Git, GitHub
- **Web Hosting and Deployment:** Netlify, Vercel, Render, and Heroku
- **Project Management:** Working with GitHub Pull Requests, Issue Tracking
- **Project Management:** C language , C++ , JavaScript .

ABOUT ME

Enthusiastic and dedicated **B.Tech - Computer Science** student currently in the **2nd semester**, with a strong academic record (9.95 CGPA in the 1st semester). Passionate about web development and skilled in the **MERN stack, REST API development, authentication technologies and also have knowledge about UI/UX design**. Eager to learn, build scalable applications, and contribute innovative solutions to real-world challenges.

PROJECTS OF UI/UX

BORROWLY :

Borrowly is a Figma-based UI/UX design that enables users to rent and borrow clothing, shoes, and accessories for various occasions. The platform offers a seamless experience for users to browse items, request rentals, and manage their rental and borrow system.
